

The Greengineers

Solar Food Dehydrator

Our concerns:

Healthy food: Dried fruit and vegetable. No additives. Beneficial vitamins.

Self-reliance: Simple method. Accessible to everybody.

Sustainability: Made of recyclable materials. Powered by solar energy.

Our product:

Function: Moisture is extracted in an all-natural way.

Design: User friendly design. Portable device with wheels and folding mechanism.

Innovation: Fully autonomous control unit.

The results:

Efficiency: Fruit and vegetable dried and ready to eat in a day.

Health: Can be eaten as a healthy snack or as a condiment to any meal.

Preservation: For up to a year. Waste reduction.
